

Stable Matching

Table	A	B
C	<i>A</i>	<i>D</i>
A	<i>B</i>	<i>E</i>
D	<i>E</i>	<i>F</i>

$$\sum_{i=0}^n i^2 = \frac{2n^3 + 3n^2 + n}{6}$$

Error Corrections

1. Removed the `\begin{center}` and `\end{center}` that were wrapping the `\section*` command for "Stable Matching". Instead, applied `\hfil` command on both sides of the "Stable Matching" text to achieve centering.
Reason: The `\section` and similar commands adjust themselves according to the document class and adding a center environment does not properly center these elements. Moreover, it is unnecessary as sections are better controlled through document class options and package commands.
